PROFESSIONAL SUMMARY

Junior Cloud Engineer focused on AWS infrastructure, networking, and Infrastructure as Code. Built a multi-layer AWS migration environment through the AWS Console and developed Terraform configurations for the same architecture, including network, compute, and data components. Seeking an internship or entry-level opportunity to grow through practical cloud engineering work.

TECHNICAL SKILLS

AWS: EC2, S3, VPC, IAM fundamentals, ALB, Auto Scaling, RDS, ElastiCache, CloudWatch

Networking: IPv4 addressing, subnetting, DNS, DHCP, TCP/UDP, routing, Security Groups, public/private subnets, NAT Gateways

Infrastructure as Code: Terraform, providers, resources, variables, modules

Systems & Tools: Ubuntu Linux, Linux CLI, SSH, VMware Workstation, Git, GitHub,
Docker fundamentals, GitHub Actions fundamentals

Databases: MySQL fundamentals, SQL

PROJECTS

RetailEdge AWS Migration | AWS Console & Terraform
GitHub: ibrahim-zayan/retailedge-aws-migration

- Designed and documented a multi-AZ AWS migration architecture across five layers: design, networking, compute, data, and CI/CD.
- Implemented the Console environment in us-east-1 with a VPC, six subnets, two NAT Gateways, four Security Groups, an Application Load Balancer, and Auto Scaling configured from 2 to 10 instances with 60% CPU target tracking and scheduled scaling.
- Configured the data-layer architecture around Amazon RDS for MySQL Multi-AZ and Amazon ElastiCache for Redis; documented CloudWatch alarms, migration/cutover planning, and a Docker/GitHub Actions CI/CD workflow.
- Recreated the architecture in Terraform in eu-west-1 using Network, Compute, and Data modules. Terraform validate and plan completed for 39 planned resources; a full Terraform apply was not performed.
- Documented a known limitation: the cache Security Group correction was made in the Console and is not yet reflected in Terraform.

EDUCATION

B.Sc. in Communications and Computer Engineering — Computers and Control Specialization
El Shorouk Academy | 2022–2027

CERTIFICATIONS & TRAINING

- Amazon Public Cloud Practitioner — National Telecommunication Institute (NTI)
- AWS Cloud Fundamentals — AWS Academy
- AWS Cloud Practitioner Training — National Telecommunication Institute (NTI)
- Cloud Essentials — National Telecommunication Institute (NTI)
- Ubuntu Linux Essentials — Mahara Tech
- Networking Fundamentals — Self-study: IP addressing, subnetting, DHCP, DNS, ARP, NAT, routing, and switching

SOFT SKILLS & LANGUAGES

Problem Solving | Teamwork | Time Management | Communication
Arabic: Native | English: Intermediate
