PROFESSIONAL SUMMARY

Cloud Engineering with foundational training in AWS Cloud and Ubuntu Linux through structured learning programs, applying this knowledge to build practical, real-world cloud experience. Seeking an internship or entry-level opportunity in Cloud Computing .

EDUCATION

B.Sc. in Communications and Computer Engineering, Computers and Control Specialization
El Shorouk Academy (2022 – 2027)

COURSES

- AWS Cloud Practitioner Training — National Telecommunication Institute (NTI)
AWS Cloud fundamentals, core services, security, networking ,and hands-on labs.
- Cloud Essentials - National Telecommunication Institute (NTI)
Fundamentals of cloud computing, infrastructure, and AWS technologies.
- Ubuntu Linux Essentials — Mahara Tech
Linux fundamentals, Ubuntu administration, and essential command-line skills.
- Networking Fundamentals — Self-study
Networking fundamentals, IP addressing, subnetting, DHCP, DNS, ARP, NAT, routing, and switching

CERTIFICATIONS

- Ubuntu Linux Essentials — Mahara Tech
- Aws cloud fundamentals -Aws academy
- Cloud Essentials -NTI
- Amazon public cloud practitioner -NTI

TECHNICAL SKILLS

Cloud Computing (AWS) : AWS Cloud Fundamentals · Identity and Access Management (IAM) · Amazon EC2 · Amazon S3 · Amazon VPC · AWS Security Fundamentals · AWS Management Console · AWS Cloud Labs

Networking: Networking Fundamentals · OSI Model · TCP/IP Model · IPv4 Addressing & Subnetting · DNS · DHCP · TCP/UDP · Ports · Routing · Security Groups · VPC Networking

Operating Systems: Ubuntu Linux · Linux Command Line · SSH

Virtualization: VMware Workstation · Virtual Machine Configuration & Management

Version Control: Git · GitHub · Repository Management

Databases: SQL · Database Schema Design

SOFT SKILLS

Problem Solving | Teamwork | Time Management | Communication

LANGUAGES Arabic — Native | English — Intermediate
